

Replacing Your Rectangular Trampoline Bed

Step 1 – Remove the old trampoline bed

Step 2 – Using the diagram above attach springs at the points that are labelled **A, A and B, B.**

Step 3 – Continuing to follow the diagram above attach the springs at the points that are labelled **C,C and D, D**

Step 4 – Finally attach the rest of the springs around the bed evenly using the same technique as before working around the trampoline so the tension in the bed is spread evenly
